September 10, 2019

Dear Parents and Guardians:

This month we have a number of activities at the school you should be aware of. First, we have the music video production project sponsored by LSCFN for 10 students. That is taking place this week until Thursday, September 12.

On Thursday, September 12, at 11 a.m. we are doing the Terry Fox Walk/Run to raise money for cancer research. If every student could bring in a Toonies to school on Thursday morning, we could send the donations to The Terry Fox Cancer Foundation.

We are doing the run in conjunction with the Recreation Centre. To that end, as we have done in year's past, we are having a community Barbeque after the Walk/Run has taken place. Please join us for a hamburger or hot dog or both!

The Week of September 16 is the REM in Haines Junction for students in grades 10 to 12. There, they will be able to earn credits through an intensive week of working in a subject area that is not in our regular school system.

Senator Duncan has requested to come to Tantalus School for a visit on September 17th. He will have a chance to walk the school and meet the staff and students.

September 23, the speaker of our Yukon Legislative Assembly will be here to do a presentation to our students on what the speaker of the house does.

September 24, we are having bear and animal safety in the school.

September 26 and 27 are fish camp days for the school headed by our FN language teachers. More to come on that from them in the near future.

September 30 to October 2, we are having in conjunction with LSCFN, the mining industry coming to Carmacks and the school to do presentations and activities with both school and community.

Thank you!

Morgan Douglas-Alexander
Principal
